ABOUT US

A Brief Story About The
Company

Godhan Enterprises is committed to creating a healthier, more sustainable, and self-reliant society by placing Desi Gomata at the center of human well-being, environmental stewardship, and rural prosperity.

Rooted in India's timeless traditions and strengthened by modern scientific understanding, we work to promote a way of life that nurtures human health, protects nature, and supports ethical agriculture. Through the conservation and promotion of indigenous cattle, we provide natural and wholesome products while encouraging conscious living practices that contribute to physical wellness, ecological sustainability, and social responsibility.

We believe that Desi Gomata plays a vital role in strengthening the relationship between humans, animals, and nature, forming the foundation of a balanced and sustainable future.

Our vision aligns with the larger goal of a Viksit Bharat. By empowering rural communities, promoting natural farming, conserving indigenous cattle, and encouraging responsible resource utilization, we aim to contribute to India's social, economic, and environmental progress.

OUR CORE EXPERTISE

01

Panchagavya-Based Products

We specialize in authentic Panchagavya-based products derived from indigenous Desi cows. By utilizing the traditional benefits of milk, curd, ghee, gomutra, and gobar, we develop products that support human wellness, sustainable agriculture, and environmental balance.

03

Vish-Mukt (Chemical-Free) Farming & Natural Products

We advocate and practice toxin-free agriculture that restores soil fertility, protects biodiversity, and produces wholesome food. Alongside agricultural produce, we manufacture value-added natural and organic products that maintain purity from farm to consumer.

02

Ayurvedic Medicines & Natural Wellness Solutions

We develop and promote Ayurvedic formulations and natural wellness solutions based on India's ancient healthcare traditions. Our products are designed to provide safe, holistic, and nature-based support for long-term health and vitality.

04

Vedic Lifestyle & Preventive Wellness

We believe prevention is the foundation of good health. Through education and awareness initiatives, we guide individuals toward Vedic lifestyle practices including proper nutrition, daily routines (Dinacharya), seasonal living (Rutucharya), and constitution-based wellness (Prakriti-based living) to support physical, mental, and spiritual well-being.
